Interpersonal: Communication, Leadership

EXPERIENCE

Freelance Web Developer

Dec '18 - Present

Self-Employed

Obtained clients and built custom sites from the ground up using technology to fit the need of the site's functionality.

- Amarillo Sky - <http://amarillosky.com/>

React app built for a band in Northern Indiana to promote, provide access to information, and book them for a gig. Allows client to post new events to the database without my help and created a video tutorial to walk them through the easy process. Built using React, Ruby on Rails, and PostgreSQL, in addition to CSS.

Web Development Fellow

Sept '18 – Nov '18

General Assembly Web Development Immersive - Remote Program

Participated in a full-time immersive Web Development course, completing in-class projects, hackathons, and personal projects focused on real-world applications of web development principles and best practices.

Developed a portfolio of individually and collaboratively focused in-class projects, including:

- Circuit Connection - <https://circuit-connection.herokuapp.com/>

AngularJS app designed to be a social media site for web developers to use and connect. AngularJS, Express, Mongoose, Node, CSS, and OAuth were used in this project. Hosted on Heroku.

Repair and Maintenance Manager

June '16 – May '18

The MasterCraft Group

Managed a team to maintain over 200 concurrent work orders received from 5 high-profile clients across the country to provide timely and proper service. Personally, oversaw all estimates and invoices sent to the client. Assisted in breaking the record for over \$2.5 million in sales in 2017.
